Description of initial contribution

Ministry interests

A Donor Advised Fund (DAF) is an easy-to-establish, flexible vehicle for charitable giving.

When you establish a DAF, you receive an income tax deduction in the year you make contributions.

You can spread your charitable giving over time and among different ministries.

The Foundation does all the administration for you.

It's your personal charitable checking account!

DONOR ADVISED FUND

ACKNOWLEDGEMENTS

DALLAS SEMINARY
FOUNDATION

Please initial each statement and sign below.

_____ The Fund will be invested and managed by the Foundation with the corresponding expenses charged to the Fund. Investment gains and losses will be attributed to the Fund corpus.

_____ Reports no less than annually will be sent to the Donors showing the principal, income, and disbursements.

_____ Subsequent contributions can be made to the Fund.

_____ The Donor and the Donor's representative may communicate in writing to the Foundation recommendations for grants of income and/or corpus at any time.

_____ Grant decisions are at the sole discretion of the Foundation. There is no obligation for the Foundation to follow the recommendations of the Donor.

_____ Grants of principal and income from the Fund must be consistent with the scope and purpose of the Foundation and Dallas Theological Seminary. The purpose of the Foundation is to support the work of the Lord through evangelical, biblically sound ministries which seek to glorify God by expanding His kingdom and building up the body of Christ. Ministries receiving support must be tax-exempt and should not be in conflict with the basics of the doctrinal statement of Dallas Theological Seminary.

_____ The minimum charitable disbursement from the fund is \$100.

_____ Fees to cover the administration of the Fund are based on the attached annual fee schedule.

_____ The Foundation may from time to time present ministries to the Donors for their consideration and recommendation.

DONOR ADVISED FUND

INVESTMENT PREFERENCE

Once contributions are made to your Advised Fund, we have four different investment options in which the funds can be invested. They are:

MONEY MARKET FUND

SHORT-TERM BOND FUND

36.1% FIXED INCOME, 53.0% EQUITIES, 7.5% REAL ASSETS & ALTERNATIVES
(GROWTH AND INCOME PORTFOLIO)

22.9% FIXED INCOME, 50.3% EQUITIES, 25.4% REAL ASSETS & ALTERNATIVES
(MODERATE GROWTH PORTFOLIO)

Each of these portfolios (except for the Money Market Fund and Short-Term Bond Fund) is invested in several mutual funds representing different asset classes. If you plan to make recommendations for the disbursements immediately, we will use the Money Market Fund for your account. If you plan to wait before recommending disbursements, then you might prefer an investment approach that provides for some growth. The longer your time horizon before recommending disbursements, the higher the allocation to stocks you might prefer us to use. Investing in stocks increases the probability for losses as well as gains in the account.

Please check which investment portfolio you would prefer for your account, and sign at the bottom.
